Subject: Keyway / Twist & Lock Style Fuel Filters
 Date: 6/1/2009
 Bulletin Number: 09-0601 Keyway / Twist & Lock Style Fuel Filters

Keyway twist & lock style fuel filters have become increasingly popular over the past several years. Some filter manufacturers' have consolidated applications through universal construction styles. Many filter manufacturers including Champion Laboratories, Inc. / Luberfiner have chosen not to follow this universal consolidation initiative but to maintain the original equipment "key tab lock" method which results in keeping part numbers specific to applications. This allows Champion Laboratories, Inc. / Luberfiner to maintain precise performance profiles for exact applications.
