Abalt Solutions Limited
Engineering, consulting and training services to the upstream oil and gas industry.
Website: www.abaltsolutions.com

ABNL Limited
ABNL Limited, services Oil and Gas exploration and production companies. Providing Manpower, Contractors, Supervise & Management, EPC, Vendors, for projects worldwide.
Website: www.abnl.net

Advanced Subsea - Deepwater Positioning & Survey
Company based in Paris, Rio & Houston, offering services in Brasil, GoM, West Africa. Acoustic Rig Positioning Services, AUV for Survey Construction Support; Tie-in Metrology; LBL positioning; Pipeline survey; R&D.
Website: www.advanced-subsea.com

Aker Maritime
One team - no boundaries. Aker Maritime is a multilocal group of companies. Together with our customers and partners, our people deliver solutions for the safe and efficient exploitation of offshore oil and gas resources.
Website: www.akermaritime.com

American Southern Energy LLC
The company provides a unique combination of traditional data gathering and research methods with modern GIS mapping techniques to provide a well balanced interpretation of geologic/geographic phenomena.
Website: asenergyconsulting.com

Anaya Welding & Lease Service, Inc.
20+ Years serving South Texas in the oil & gas industry. We perform oilfield construction and pipeline maintenance.
Website: www.anayawelding.com

Applied Physics Systems
We specialize in the design and manufacture of EM Dipole Measurement While Drilling (MWD) Systems, Near Bit sensors, Gamma Logging, Directional Sensors, and Magnetometer systems including custom design.
Website: www.appliedphysics.com

Aquaterra Energy Ltd
Aquaterra Energy provides world class and award winning offshore engineering solutions and technical support for the global oil and gas industry.
Website: www.aquaterraenergy.com

Argonauta Energy Services L.L.C.
Argonauta Energy Services provides worldwide technical consulting services to the upstream oil and gas industry through Argonauta Drilling Services, Argonauta Marine & Subsea, and Argonauta Exploration & Production Services.
Website: www.argonenergy.com

Atherion Management Services Ltd.
Project Management
Website: atherion.co.uk

Atlas Maridan
Maridan is one of the world leading suppliers of AUV technology and survey services. The company has experience in developing, manufacturing and using AUV for missions ranging from Oil & Gas to Telecomm and archaeology.
Website: www.maridan.dk
Audubon Engineering
Audubon is a full-service project solutions provider for the domestic and international oil & gas, petrochemical & refining, and power generation markets. We provide the power and flexibility of comprehensive engineering and service disciplines.
Website: www.audubon-engineering.com

AVA Energy Ltd
AVA provides the complete Human Capital Management solution across the Full Energy Life Cycle from upstream concept identification and exploration & production, to midstream transportation.
Website: avaenergy.co.uk

Avasthi & Associates, Inc.
Avasthi & Associates, Inc., popularly known around the world as Avasthi Consulting, is a worldwide petroleum consulting company headquartered in Houston, Texas, USA. The services that we provide are described in detail in our website.
Website: www.avasthiconsulting.com

Axis Well Technology
Axis Well Technology is the UK’s largest independent consultancy, providing fully-integrated solutions for Well Technology and Reservoir Development to the UK and international upstream oil and gas market.
Website: www.axis-wt.com

Baker Hughes
Baker Hughes, a leader in oilfield services, creates value for oil and gas producers by providing practical technology to find, develop, produce and manage petroleum reservoirs.
Website: www.bakerhughes.com

Bayphase Limited
Company of Geologists, Engineers and Investment Analysts Specializing in assessment of oil and gas fields whether on or offshore, all aspects of subsurface and surface evaluation covered. Over 30 assignments in last two years.
Website: www.bayphase.com

Berachah Group Sdn Bhd
Berachah Group provides specialized engineering and project management services for the onshore and offshore oil and gas industry. We are a rather young, very committed team of 13 strong, including the very experienced owner, Mr Mohan.
Website: www.berachahgroup.com/index.html

Berger Geosciences, LLC.
We offer consulting services with focus on 6 service items: - Shallow Geohazard Assessments - Riserless Drilling Programs - GIS Data Integration - Field Development Planning Studies - Project Management of Field Activities - Mapping Solutions
Website: www.b-geo.com

Beron Petroleum Exploration Limited
Petroleum exploration and consulting services, geological, geophysical, seismic crew, drilling, workover and mudlogging unit services in turkey, in the middle east and surrounding countries.
Website: www.beron.com.tr

Bluewater Group of Louisiana, Inc.
BGI can provide any level of service needed, including: Full oversight / management of project, partial oversight / management, or we can provide inspection services only.
Website: www.bluewatergroupofla.com

Boa Marine Services Inc.
As part of the Boa Group, Boa Marine Services Inc. (BMS) is a full-service deepwater construction solution provider created to compliment Boa Group’s fleet of construction vessels (OCV), AHTS PSVs and semi-submersible barges.
Website: www.boa.no

Castle Energy Associates
Project consultancy with worldwide experience of onshore and offshore projects in oil, gas, petrochemical, pipeline and power industries. We develop, promote and enhance new projects from concept engineering through to eventual decommissioning.
Website: castle-energy.co.uk
**Cathie Associates**  
Cathie Associates assist Oil Companies and Contractors with all Foundation and Soil related issues: geological studies, survey management, geophysics consultancy, design of foundations, anchors, pipelines.  
Website: www.cathie-associates.com

**Coal Methane Solutions, LLC**  
Helping energy companies, contractors and consultants, government and regulatory agencies, and non-governmental organizations close the gap between what they are currently achieving and what they have the potential to achieve.  
Website: www.coalmethanesolutions.com/

**Comairco**  
Comairco Equipment offer quality sullair air compressors, service, sales and genuine sullair parts. We provide professional service for any type of business with compressed air needs.  
Website: www.comairco.com

**CommSolGlobal**  
CSG provides Commissioning, Consulting, Engineering, Project Management, Liaison, and Preservation services, as well as, lube-oil/chemical filtering and flushing services with our award-winning, patent-pending system.  
Website: www.commsolglobal.com

**CoreLab**  
Reservoir optimization is important to oil companies as they reduce production costs and increase cash flow. Reservoir optimization delivers the incremental barrel, the lowest cost and most profitable barrel. CoreLab delivers reservoir optimization.  
Website: www.corelab.com

**Cornerstone Valve: Severe Service Engineering**  
Specializing in ball & check valves for severe service industry. Manufactured in TX, each valve is tested/fully cycled/verified to API ISO/ANSI standards & customer specs. Our valves outperform in the most extreme conditions so your company can too.  
Website: www.cornerstonevalve.com

**Corrigo Technical Services**  
Oil & Gas field development plan FDP, EOR, CO2 recovery, plant facilities, LPG, FPSO, cost, schedule, basic engineering, FEED, EPC tenders, design engineering for equipment, flow assurance, dynamic simulation, flare system, corrosion.  
Website: www.corrigo.com.my

**Daptech LLC**  
Crown and floor protection, brake assist, auto-drill.  
Website: www.daptechllc.com

**Deloitte & Touche - Petroleum Services**  
Our integrated suite of Information Solutions enables clients to visualize oil and gas information from spatial, financial and reporting perspectives, giving them a unique view of the industry and a competitive advantage.  
Website: www.psg.deloitte.com

**DEVELOP**  
DEVELOP provides quality training to its clients, within budget, and time schedules.  
Website: www.oilgascourse.com

**Due South Project Management Ltd.**  
A small but experienced engineering and survey company serving South Alberta. We can help you with your next project, be it big or small.  
Website: www.duesouthproject.ca

**DuTemp**  
Website: www.dutemp.com

**EDG, Inc. Consulting Engineers**  
A full service offshore oil & gas engineering firm with offices in Houston, Lafayette and Metairie providing professional services in Civil, Mech, Elect, Environmental and Marine engineering and construction management. 2D & 3D drafting support.  
Website: www.edgweb.com
Ellon-Drill Venetico UK LTD
Our mission is to provide quality well intervention services to the major oil companies in the major oil producing African countries, mainly Nigeria.
Website: www.ellon-drillvenetico.com

Energy Outpost Company
A fully staffed modern asset team using the latest GeoQuest software for full integration of geology, seismic, logs, production history, geostatistics, etc. All work is upscaled and simulated for various “what-if” development scenarios.
Website: www.energyoutpost.com

Energy Specialists Consulting, LLC
We have integrated experienced consulting engineering services with geology and geophysics expertise to provide uniquely qualified teams for underground storage projects, pipeline design and other hydrocarbon transportation projects.
Website: nrgspecialists.com

Energy Specialists Platform
Consultancy services regarding: oil and gas production, reserves evaluation, drilling, gas treatment, underground gas storage, gas transport and distribution, gas sales and contracts, gas applications, safety and environment, project management.
Website: www.esplatform.nl

Enertech Services International Inc
Enertech Services International is a One-Stop-Shop for all your Deepwater Offshore Engineering, Management, Procurement and Project Services needs. ESI provides complete multi-discipline engineering services.
Website: www.enertech-intl.com

Equinox Engineering Ltd.
Equinox is a complete EPCM service provider to the Canadian and international marketplace, successfully executing hundreds of sweet and sour gas processing facilities, heavy and conventional oil facilities and pipeline projects.
Website: www.equinox-eng.com/

Expertep.com
ExPert E&P Consulting was formed with one single goal - to create maximum values for our clients. We rely on a core team of personnel, recognized experts in the E&P field, working together more than a decade.
Website: www.expertep.com

Fabricom AS
Our Oil & Gas activities include: FrontEnd/Detailed Engineering re Mods/Upgrades to offshore facilities, Fabrication (modules,PAUs,PARs) re onshore/offshore facilities, Site Installation onshore/offshore & Maintenance onshore/offshore
Website: www.fabricom.no/English/index%20engelsk.htm

Fairwinds International, Inc.
A consulting engineering firm specializing in the development of upstream oil and gas properties. Fairwinds takes an overall project lifecycle approach to help determine the most economic methods of field development.
Website: www.fairwindsintl.com

FEED Services for Deepwater Tiebacks
DeepSea is a niche consultancy providing FEED services for deepwater tiebacks. With extensive expertise in the design & installation of pipe-in-pipe & insulated flowlines DeepSea is at the forefront of deepwater development solutions and technology.
Website: www.deepsea-eng.com

Forest Garb & Associates LLC.
Forest Garb offers a complete range of geological and engineering services - from screening exploration prospects and designing development drilling projects to estimating reserves, forecasting future production and presenting economic analyses.
Website: www.forgarb.com
**Foster Wheeler EPC**
Expert services - engineering, construction, project development, consulting, concept screening, technology evaluation, feasibility studies, conceptual design, FEED, EPC, project management, operations and maintenance, training and decommissioning.
Website: www.fwc.com/industries/fielddev.cfm

**Fusion Group UA**
FusionGroup specializes in Oil & Gas Civil Construction including: road construction, pad preparation, utilities and Environmental Remediation during and after well production
Website: fusiongroup.com.ua

**Gaffney, Cline & Associates**
An international oil and gas advisory firm with over 40 years of experience. Offering a wide range of technical and commercial services to all sectors of the industry. Offices based in UK, Houston, Singapore, Sydney, Buenos Aires and Moscow.
Website: www.gaffney-cline.com

**Geo-Microbial Technologies (GMT)**
Geo-Microbial Technologies, Inc., (GMT) is a privately held company located in Ochelata, Oklahoma, well known in the oil and gas industry for its research in petroleum microbiology and for hydrocarbon microseepage surveys.
Website: www.gmtgeochem.com/

**GeoScience Limited**
Description of GeoScience’s earth science consultancy products in geomechanics, characterisation of fractured reservoirs, and formation water chemistry.
Website: www.geoscience.co.uk

**Geoservices - People, Knowledge & Technology**
World leader in Mud Logging with more than 45 years experience & over 60 bases worldwide. Geoservices also specialises in Well Intervention (slickline) and Field Surveillance services.
Website: www.geoservices.com

**Gibson Applied Technology and Engineering**
GATE, LLC provides the following professional consultancy services: Materials and Corrosion Engineering; Waterflood Sourcing and Scaling Studies; Systems-wide Materials Selection FEED Studies; Sand/Erosion Modeling and Surveillance.
Website: www.gatellc.com

**GL Noble Denton**
GL Noble Denton offers services for the complete asset lifecycle by combining advanced engineering and analytical skills with extensive operational experience of complex offshore and onshore oil & gas assets, enhanced by our software portfolio.
Website: www.gl-nobledenton.com

**Global Leaders in Offshore Solutions**
PHECO, Inc. is a consulting engineering company serving the oil & gas energy business. The company will focus on conceptual studies, FEED’s, detailed eng. and project management for both upstream and downstream projects in all over the world.
Website: www.pheco.com

**Granite Productions**
Extensive oil and gas engineering experience with visualisation services in support of design, engineering and marketing projects. Project analysis and support for Offshore, Topsides, Construction, Production, Process, Subsea, Marine, Environmental.
Website: www.granimate.com

**Gulf Drilling & Maintenance**
An integrated oil service company offering slickline, wireline, testing, coil tubing, pumping, stimulation, cementing, hydraulic workover and early production services to the upstream oil industry.
Website: www.gdmc-kwt.com

**Halker Consulting LLC**
Halker Consulting uses a customer-focused, process-driven approach to safely and efficiently provide high quality, high value engineering and design solutions for the Energy industry - anywhere, anytime.
Website: www.halkerconsulting.com
Halliburton Consulting & Project Management
Insite (with Halliburton Consulting) & Execution (with Halliburton Project Management) Customer collaboration, use of fit-for-purpose technology, and operational excellence expertise, differentiates Halliburton Consulting & Project Management.
Website: www.halliburton.com

HERO Flare
At HERO Flare, we specialize in small, fast delivery flares for the production field and gas plants. Normal deliveries are measured in weeks and short delivery can mean overnight.
Website: www.heroflare.com

Hobark Consultant Management Services
Hobark International (UK) Ltd, CMS, is the staffing arm of the HIL group; delivering full cycle recruitment solutions for all segments of the O&G industry. Our services cover: Mobilisation, Immigration, Taxation, Insurance and Project Management.
Website: www.hobarkcms.com

Holpace Nigeria Limited
Holpace Nigeria Limited is an indigenous Engineering company registered under the corporate affairs commission of Nigeria. Our core services are Engineering, Construction, Asset management, Procurement and Logistics.
Website: www.holpace.com

Hy-Bon Engineering
From oilfield stock tanks, casinghead gas, field gas collection to biogas from wastewater facilities, digester tanks, landfills or breweries, Hy-Bon can design the package. We also design and mfg custom CNG packages for municipal applications.
Website: www.hy-bon.com

Hydro Spy, LLC
Hydro Spy is a Houston-based hydro excavation contractor that provides hydro and air excavation support to contractors and engineers throughout the oil, gas, chemical, construction and municipal industries.
Website: www.hydro-spy.com

Hydrosearch Associates Ltd.
The Hydrosearch Group offers best-in-class consultancy services across a wide range of disciplines critical to the Petroleum, Cables, Civil Engineering and Minerals Industries.
Website: www.hydrosearch.com

ICON Engineering Pty Ltd
ICON Engineering provides world-wide engineering, installation and operations services to the oil and gas industry.
Website: www.iconeng.com.au

Ingen
Independent consultancy set up to bring new ideas and approach to field development and re-development opportunities to the oil and gas industry. Specialize in techno-economic modelling of incremental projects using proprietary RAVE software.
Website: www.ingen-ideas.com

INTEC Engineering
Leader in Deepwater Technology, INTEC Engineering serves the energy industry worldwide. Our disciplines: Pipelines, Terminals, Subsea / Floating Production, Onshore Facilities, and Flow Assurance enable INTEC to play a major role in the development of oil and gas reserves.
Website: www.intec-hou.com

International Reservoir Technologies, Inc
IRT provides worldwide petroleum reservoir management consulting services. IRT offers a full range of services required for addressing the simplest single well problems to the completion of complex field appraisal and development plans.
Website: www.irt-inc.com

IPOZ Systems
Applications are: Subsea Metrology Pipeline surveys, Out-of-straightness Navigation, Pigging Land Survey Position & Orientation
Website: www.ipoz.net
KAPPA Group
International Consulting Engineers
Website: www.kappa-group.com/

KYE Engineering and Construction Ltd
Located in the UK, USA, South Africa and Nigeria, KYE is a single-source provider of design, construction, installation, operations and maintenance services to oil, gas, petrochemical, power, water and marine industries.
Website: www.kye-ltd.com

Landmark Graphics Corporation
Landmark Graphics is the leading supplier of integrated E&P technical and economic software and services to support decision making about finding, drilling and producing oil and gas.
Website: www.lgc.com

Lanmark Engineering Inc.
Lanmark Engineering Inc. is a Canadian-based Engineering, Procurement, Construction and Management firm that has been providing service to the oil and gas industry in Western Canada since 1979.
Website: www.lanmark.net

LEWCO Integrated Technical Services, Inc.
LEWCO is a full service, global consulting firm to the oil and gas industry. We focus on providing high quality temporary technical professionals to the exploration and production sector. Visit our self-service database.
Website: www.lewco.com

M&H Energy Services
Houston-based with global reach, M&H is an engineering and consulting firm that serves oil and gas, industrial, manufacturing, and petrochemicals & refining clients.
Website: www.mhes.com

Materia Resources LLC
Materia Resources LLC is a Houston based Exploration and Production Company startup that is focused on the domestic onshore basins of the Gulf Coast and West Texas regions. It also engages in the business of overseas oilfield procurement.
Website: www.materiaresources.com

Melland Engineering, Inc.
Melland Engineering Inc. which is centrally located in McPherson, Kansas, provides petroleum engineering and geological consulting services to the oil and gas industry from Kansas to California.
Website: www.mellandengineering.com

Meridian Associates Inc
Meridian Associates, seeks to provide clients with technical expertise, end-to-end management of complex energy and development projects in helping them to succeed financially, environmentally and socially responsibly.
Website: www.meridianassoc.com/

Microbial Technologies
Biomar is a Biotechnological company specializing in Marine Microbiology and the Chemistry of Natural Products, with the maximum technological capabilities to take advantage of the sea’s resources.
Website: www.biomarmicrobialtechnologies.com

MODEC
MODEC is a leading provider of Floating Production systems including engineering, procurement, construction, installation, and operations for FPSOs, FSOs, and Tension Leg Platforms.
Website: www.modec-intl.com

Moorhouse Drilling & Completions
Information and site for Moorhouse Drilling & Completions, a UK based consultancy company specializing in land work in the UK and Europe.
Website: www.moorhousepetroleum.co.uk
Moscow State Geological Prospecting Academy
Official Site of Moscow State Geological Prospecting Academy
Website: msgpa.edu.ru

MSI Group
MSI Asia Pacific Sdn Bhd (A MSI Group Company) was founded in 2004 to assist major O&G corporations to develop both onshore and offshore assets. MSI specializes in the provision of Engineering and Project Management services for the O&G Industry.
Website: www.msigroup.com.my

MSL Services Corporation
MSL is an offshore engineering consulting company providing structural, marine & pipeline engineering services to the offshore oil & gas industry. MSL offers extensive structural engineering & analysis capability focused in various key service areas.
Website: www.mslengineering.com

Multiphase Solutions, Inc.
MSi provides: Services - Flow assurance, multiphase flow, process modeling, CFD/FEM; Software - Field-proven pipeline & asset management systems for real-time monitoring, control & optimization of single-phase & multiphase oil & gas operations.
Website: www.multiphase.com

NAIAD Company Ltd.
Naiad Company Ltd is an integrated engineering consulting firm, headquartered in Calgary, Canada. Founded in 2000 out of a passion for the art of engineering, Naiad works with clients from the manufacturing, oil & gas and aerospace sectors.
Website: www.naiad.ca

Narag Energy
Production planning, field development studies, seismic processing and information management. Project offices in Canada, United Arab Emirate, North & South Sudan and Nigeria.
Website: naragenergy.com/

New Tech Global
Founded in 1998, New Tech Global -- a leading US-based upstream operations consulting firm is a leading expert in project management and consultancy services in the upstream oil and gas industry.
Website: www.ntglobal.com

NOMADS
NOMADS works with other major oil and gas associations and petroleum societies in the Houston area to disseminate knowledge about the international oilfield, to help those seeking jobs in the energy industry.
Website: www.nomadsintl.com

Novomet
Using cutting-edge technologies Novomet produces equipment for artificial oil lifting meeting all up-to-date challenges, provides full-complex services including sizing of equipment to suit unique well conditions and supervising.
Website: www.novomet.ru/eng/

Ocean Flow International
Ocean Flow International provides world class Technical, Engineering, Commercial, and Management expertise, to oil and gas operating companies, and other offshore companies for Subsea and Offshore development projects around the world.
Website: www.ocean-flow.com

Offshore Design Engineering Limited
Official website of Offshore Design Engineering, providers of Engineering and Operations support services to the Oil and Gas industry.
Website: www.ode-ltd.co.uk

Offshore Quarters - Design and Build
Specialist design & build company of modular living quarters - delivering single rooms to multi-storey buildings - ready for final reassembly anywhere worldwide - & provides fully fitted equipt rooms for wide variety of industrial applications.
Website: www.consafe.co.uk
OilAdvisers
Screening Risk/value evaluation, Recommendation strategy, Commercial services, Economics screening. Subsurface-seismic interpretation, Geo. modelling, wire line interpreting/reservoir simulation, Field studies. Website: www.oiladvisers.com

Oilfield Technical Solutions Ltd
OFTSL is a global oilfield consultancy, providing specialist technical services in process, production chemistry, and environmental support to oil and gas asset operators and related organizations. Website: www.oftsl.com

Onyx Consulting Engineers, LLC
Professional Engineering Firm offering structural, mechanical, electrical, process, instrumentation, and control systems for the oil and gas, marine, and petrochemical industries. Website: www.onyx-eng.com

Optimization Petroleum Technologies, Inc.
Optimization Petroleum Technologies,(OPT) is a provider of PEOffice, an integrated software system for reservoir management and production optimization. With PEOffice, clients are able to design, analyze, diagnose and forecast production easily. Website: www.optpt.com

Paragon Engineering Services, Inc.
Provide engineering, design/drafting, project management, inspection, traffic, construction management and training for the oil and gas industry. Website: www.paraenr.com

PD&MS Energy
PD&MS Energy, part of the Wilton Group, is a leading integrated services provider to the oil and gas, drilling, production and marine industries. From initial FEED studies through design, fabrication and construction to installation and commissioning. Website: www.pdmsenergy.com

Performance Improvements (PI)
PI supply Subsea Engineering services for clients development programmes. The company personnel has an in-depth knowledge of pipeline design and construction engineering from screen phases to project execution. Website: www.pi-ltd.com

Petrel Robertson Consulting Ltd.
Petrel Robertson Consulting Ltd. is a global petroleum geoscience consulting firm, based in Calgary, Alberta. The company offers exploration and development services to clients in more than 40 countries around the world. Website: www.petrelrob.com

Petrofac - Total Facilities Solutions
Petrofac provides total facilities solutions from development planning thru decommissioning and abandonment. We undertake field development and front-end engineering, EPC projects, O&M services and management, onshore and offshore, around the world. Website: www.petrofac.com

Petroleum Development Consultants
Provides a unique service combining technical and commercial expertise for the international oil and gas industry. Projects carried out for international oil companies, World Bank, European Union in more than 40 countries. Website: www.pdc.uk.com

Petroleum Research Center
Petroleum Research Center, PAL, has fully equipped high tech facilities that serve the petroleum industry. It provides consulting and analytical services to energy and environment related sectors worldwide. Website: www.pal.metu.edu.tr

Petron Engineering
Petroen Engineering is an integrated Engineering, Procurement, Construction and Commissioning (EPCC) company: recognized as a committed service provider by the Exploration & Production companies. Website: www.petro-en.com
Petrotel Inc
Consulting: reservoir engineering, simulation, characterization, enhanced oil recovery technologies, development/Exploration G&G, petrophysics, integrated project management/planning, including production, drilling, and facility engineering support.
Website: www.petrotel.com/

PetroTiger
PetroTiger provides high-end Hydrocarbon and Infrastructure Services. Our professionals use state-of-the-art technology, rigorous process control and a stringent health and safety regimen to offer our clients global-standard quality and efficiency.
Website: www.petrotiger.com

Pro Plus, Inc.
Pro Plus, Inc. is a full service professional plus engineering and inspection corporation serving the petroleum and telecommunications industries on a worldwide basis from headquarters in Houston, Texas.
Website: www.proplusinc.com

Project Associates, Inc.
Project Associates, Inc. is a full-service engineering, design, and project management services company. With 35 years experience in the oil and gas industry, PAI offers a complete range of engineering capabilities.
Website: www.paieng.com

Reservoir and Subsurface Engineering
AEA Technology provides geology, reservoir engineering, simulation and management services. Company also operates a SCAL reservoir condition laboratory.
Website: www.aeat.co.uk/

S. Zia ul Haq & Sons (Catering & Camp Management)
S. Zia ul Haq & Sons is one of the leading services provider to oil, gas, power industry. We have adequate resources, qualified and trained manpower, food safety certification, to provide services in any remote area of the world.
Website: www.zias.com.pk

Schlumberger
Schlumberger is the leading supplier of technology, information solutions, and integrated project management to the international petroleum industry. It provides virtually every type of service to the upstream exploration and production industry.
Website: www.slb.com

Sense Engineering Services Ltd
Sense offers quality assurance and control as well as worldwide pipe mill inspections and vendor audits during fabrication of components such as line pipes, fittings.
Website: www.sense-cn.com

SERA FIM Ltd
Serafim Ltd specialises in applying mathematics and mathematical reasoning to understand and solve practical problems in engineering and software development. SERAFIM Ltd provides reservoir engineering consultancy, and data management solutions.
Website: www.serafimltd.com

Sigma Setia Sdn Bhd
We are an oilfield service company dealing with Well Testing, Early Production Facilities and Well Services such as Clean-up. We also provide consultancy on subsurface such as full field review and field development plan.
Website: www.sigmasetia.com

SOFREGAZ
Expertise ranges from gas fields to natural gas end-users, and includes treatment, transmission, liquefaction and distribution of natural gas.
Website: www.sofregaz.fr

South Texas Reservoir Alliance LLC (STXRA)
Specialized consulting to the petroleum industry encompassing Business Development and Operations, including: geology, reservoir/production/drilling engineering, A&D assistance, and economic analysis.
Website: http://www.stxra.com
Southwest Oil and Gas Services Ltd
Oil and gas field service company dedicated to outstanding performance and quality workmanship.
Website: www.southwestoilandgas.com

Subsea House AS
Subsea House, providing services within the offshore and subsea industry. Our service include R&D, assembly, testing and refurbishment of subsea equipment, in combination with project management, engineering and supply.
Website: www.subseahouse.com

Syscom18
Syscom 18 is a company with solely Romanian investment specialized in the field of industrial automation equipment and measuring systems.
Website: www.syscom.ro

TECNA Arabia Company Ltd
General EPC company with more than 3 decades experience managing major EPC projects in the Americas and Europe
Website: www.tecna.com

Total Project Services
Pt. Batam Dwi Karya is Indonesian based company:
Onshore / Offshore Drilling Service - Engineering & Construction - Marine & Heavy Equipment - Total Logistics with own Marine Base - General Trading
Website: www.batam-dwikarya.com

TPS Houston Group LLC
TPS Houston Group Power generation for drilling applications. Repair, remanufacturing, design and packaging. Technical support and customer service in less time and at less cost.
Website: www.tpshoustongroup.com

Traton
Traton utilizes ethical and competent engineering and operating practices with a strong emphasis on regulatory and environmental compliance. Our primary objective is to continuously exceed the needs and expectations of each customer.
Website: traton.org

Tri Ocean Engineering Ltd.
Tri Ocean Engineering Ltd. is a Calgary based production and drilling facilities design company. Tri Ocean has a proven track record of providing fit-for-purpose solutions for the development of onshore and offshore oil and gas fields.
Website: www.tri-ocean.com

TRU Exploration LLC & TRU Operating LLC
TRU Exploration is a Texas based oil and natural gas drilling company headquartered in Denton, TX. TRU Exploration and its management have drilled in many areas throughout Texas, Oklahoma, Kansas, and Louisiana.
Website: www.truexploration.com

Tyco Fire & Integrated Solutions
Rhomax Metering has unique experience in the provision of specialist flow measurement services to the oil and gas sector. Our track record reflects how we have repeatedly met the demanding requirements of this market where we have operated since 1984.
Website: www.tycofis.co.uk/metering

Tysons Oil and Energy
Tysons Oil and Energy, part of the Tysons group founded in 1820, is active in Europe, the Caspian region & Russia. Experts in E&P, distribution, and oil and gas marketing, they manufacture line pipe, anti-corrosive coatings.
Website: www.tysonsoilandenergy.com

Uniterm Nigeria Limited
Uniterm Nigeria Limited has been providing catering services since its establishment in Nigeria in 2004. Since then we have expanded to include the provision of drill bits and drilling rigs. UNL is part of the Hobark International Limited Group
Website: www.unitermintl.com/

UniversalPegasus International
UniversalPegasus International is a leader in engineering, project management and construction management for the energy industry.
Website: www.universalpegasus.com
**Upstream Advisors**
Upstream Advisors is a niche, independent consultancy serving the exploration and production sector of the oil and gas industry.
Website: www.upstream-advisors.com

**UWG Ltd.**
Providers of Equipment and Services to the Oil and Gas Industry.
Website: www.uwg.co.uk

**Ventures**
Specializing in commercial, industrial and civil site development. Our company’s rapid growth and success is due to a strong work ethic, responsive service, and a reputation for meeting schedules and budgetary requirements.
Website: venturescontracting.com

**Veolia ES**
Veolia ES - Offshore Marine Division employs DP2 & DP3 marine support vessels equipped with 3,000 - 4,000m depth rated XLS and XLX ROVs and IMCA certified SAT dive systems across the Gulf of Mexico.
Website: www.veoliaes.com/en/services/all/marine.html

**Veteran Oil Partners**
Veteran Oil Partners LLC is a Veteran owned/Partner based Oil and Gas exploration and development company. VOP incorporates a multiple phase investment philosophy that places a heavy focus on the acquisition and development of HBP leases.
Website: www.veteranoilpartners.com

**Viking Field Development Solutions**
VFDS is a FPSO Conversion & Field development Company. We work with short listed Process design(EPC) houses, TMS and Installation Groups as well as Specialty Design & Fabrication Companies. We aim to build a relationship and solidarity with our client.
Website: www.vikingfds.com

**Zishan Engineers (Private) Limited**
Gas Plants, Power Plants, Wind Farms, Refineries, Pipelines, Terminals, Jetties, Petrochemical etc. Services include: Studies, Conceptual Design/FEED, Detailed Design, Construction Supervision & End-to-End Project Management Services
Website: www.zishanengineers.com
